

SIMTricks

Showcase your
mobile subscriptions
right on consumers'
smartphones and make
them choose you!

NEUROCOM

DISCOVER SIMTricks

SIMTricks is an Android app that collects actual usage data from the smartphone, identifies matching product combinations from your portfolio and calls to action at the right moment and in the right context.

GO TO MARKET AS EASY AS ONE TWO THREE

Specify the look and feel of the app, decide on the tariffs you want to showcase and include SIMTricks in your next marketing campaign. SIMTricks is 100% cloud based managed service and no integration with your internal systems is required.

EXTEND SELF-SERVICE AND PAVE THE WAY FOR CONVERSIONS

Use SIMTricks as a self-service extension to acquire new customers. Facilitate the users' decision and avoid troublesome estimations on their part. Propose them offers that match their mobile usage best through the SIMTricks app installed on their smartphone and available 24/7/365.

Display your Logo

Your brand or the name you will choose for the application will be here

Present the description of the offer

Display your offer matching user's mobile usage best

Provide a clear description of the monthly costs

Propose to order online or to request a call with your agents

SIMTricks
